LED Intro Task Light

A modern task light with a residential appeal that provides the right amount of light that brings comfort to your eyes. Easy to adjust and to position the light where it is needed with 3 levels of brightness.

- Single arm – worksurfaces 58”W or smaller
- Dual arm – worksurfaces 60”W or larger
- Long lasting and energy friendly LED technology
- 3000K color temperature
- Single touch switch with brightness levels at 100%, 50%, 10%
- Adjustable hinge points
- Low energy usage at 7 watts total system
- Freestanding base is ideal for placing on desk or table tops. Painted to match the entire light fixture and weighted to prevent tipping.
- Light head pivots up and down 180° (up/down) and swivels 350° (side to side)

Universal Cable Management

Beneath most desks is a growing chaos of cords. The AMQ Universal Cable Management Kit makes neat work of power access and discreetly mounts under all AMQ worksurfaces, fixed or height adjustable.

Accessible but out of sight

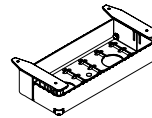

- Two tray sizes accommodate four to nine utility power outlets. The tray's hinged design folds open for easy access and snaps shut when you're done.
- Under worksurface power can be used alone or paired with above the worksurface power solutions, while keeping cords neat and concealed.

Smart straps keep cords compact

- Inside, power blocks slide securely into mounting slots within the tray, and smart straps – a proprietary feature inspired by suitcase compression straps – are used to keep cables compact. When not in use, the straps store in pockets built into the tray.
